Course Information (continued)

Format

Teaching methods will include lectures, report writing exercises, discussion of videotaped vignettes and informal interaction with faculty. A comprehensive 1,000-page syllabus with lecture outlines, 100 case summaries, report samples, reading lists, and over 700 self-assessment questions will be provided to all participants at no extra cost.

Continuing Education

The American Academy of Psychiatry and the Law designates this educational activity for a maximum of 21 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Target Audience

This program is designed for psychiatrists, psychologists, social workers, and attorneys interested in mental health law. The Course will be useful for those desiring a comprehensive overview and update in forensic psychiatry, as well as those preparing for forensic examinations.

Accommodations

The Review Course will be held at The Westin, Seattle, Washington. Registrants may make their room reservations through the AAPL website:

www.AAPL.org

Reservations may also be made by phone: 800-228-3000. Reservations are subject to availability. Room rates can only be guaranteed until September 20, 2008. Rates are \$224 plus 15.6% tax for a single or double room. Check-in time is 4:00 p.m. and check-out time is 12:00 p.m. The hotel is approximately 35 minutes from Seattle International Airport.

Cancellation policy:

For cancellations received in writing up to one week before the course begins, a \$60 processing fee will be charged. Thereafter, there will be no refund.

Information:

This three-day course immediately precedes the four-day Annual Meeting of the American Academy of Psychiatry and the Law at the same hotel.

Course Information

Course Objective

This intensive three-day course in forensic psychiatry will provide an in depth review of selected topics and relevant landmark cases. Basic concepts will be reviewed along with the latest case law. At the conclusion of the course, participants will: (1) have a good understanding of the major topics in forensic psychiatry; (2) understand the landmark mental health law cases; (3) be able to write more effective forensic reports; (4) be able to assess competency and sanity in defendants; and (5) be able to detect malingered mental illness.

(continued on back panel)

Comments

"This course is superb for forensic psychiatrists who want to reinforce and update their knowledge. The outstanding faculty give challenging case examples that help even experienced forensic psychiatrists improve their ability to do forensic evaluations." (Renee Binder, M.D.)
