Course Objectives

The goal of the conference is to inform attendees about current major issues in forensic mental health and afford them opportunities to refresh skills in the fundamentals of the discipline, engage in discussion with peers on the standards governing the profession, and update their present knowledge. At the conclusion of this activity, participants will be able to:

1. Describe and implement enhanced consultative strategies at the interface of psychiatry and the legal profession;
2. Apply improved techniques of examination and communication in forensic settings, both in their own practice and in their supervision of residents, students and allied health professionals;
3. Discuss the impact of noncompliance with treatment recommendations for forensic patients.
